NURSERY

**2016  
WHOLESALE  
PRICELIST**

Dear Friends,

Welcome to 2016. You wish we had more trees available and so do we. While we both share some frustration during this phase, significant annual increases in production since the depths of the recession will result in a more predictable and consistent supply of Kankakee trees going forward.

Kankakee Nursery has made many positive improvements over this past year. We have renewed our focus on tree propagation with an eye on increasing diversity. The quality of our container grown product is high and continues to improve. Our office staff has expanded in order to better serve your needs. Exciting new product lines are in the pipeline and will be unveiled in time. Finally, our next generations of leaders are in place and are working hard and learning every day.

We do genuinely believe that we are all in this together. Every member of our industry I have talked to feels a renewed sense of optimism. We can't thank you enough for supporting us through all of the tough years. We wish you continued success and hope that we can continue to play a part in it.

Sincerely,

*Steve Worth*
